FAMILY SUPPORT VERIFICATION REPORT

Beneficiary case summary • Created 20 October 2026

Important: This is a sample, unverified case summary prepared from illustrative details. It is not an official verification or proof of eligibility. Confirm all details with the beneficiary and authorised caseworker before making a decision.

1. Beneficiary Details

Field	Information
Beneficiary name	John K. (sample name; confirm full name)
Age	12 (illustrative; confirm)
Gender	Male (illustrative; confirm)
Guardian	Mother (illustrative; confirm)
Location	Mukuru, Nairobi, Kenya (illustrative; confirm)
Household income	Low / irregular (reported in sample; verify)

2. Requested Support

Support category: Family support

Suggested priority: To be assessed by a caseworker; do not treat the sample priority as a verified assessment.

Reported needs: Assistance with basic household needs, potentially including food, school-related costs, and healthcare.

Current situation: The sample description indicates that household resources may be insufficient to cover essential needs. Confirm the specific needs and urgency directly.

3. Education and Goals

School: Mukuru Primary School (illustrative; confirm).

Attendance / notes: The sample mentions possible absences due to family responsibilities; verify with the guardian or school only with appropriate consent.

Personal goal: Become an engineer (illustrative; confirm with John).

4. Existing Support

No existing support was specified in the source example. Confirm whether the household currently receives assistance and how often.

5. Verification Status and Follow-up

Item	Status / action
Verification status	Pending — not independently verified
Case reference	JHN_015_2026 (sample reference; replace if your system assigns an ID)
Next steps	Confirm identity and guardian consent; assess household needs; record evidence securely; check for du

Privacy note: John is described as a child in this example. Limit access to this report, avoid sharing it publicly, and collect only information needed for support assessment.
